

### INTERNATIONAL EVENTS

And suddenly summer came and many of you, I hope, will be enjoying the holidays  
But the activity does not stop and after the SBB congress in Bern, we will have during the month of August and at the beginning of September another two important international events, in which EFIB is collaborating and in which Soil and Water Bioengineering has an important presence: **the Lasosu conference**, with a specific session and the **SER Europe congress**, with a **course and a symposium in SWB**. We send you again a reminder if you want to participate

Still with the sad images in our memory, we wish to take advantage of these lines to wish a speedy recovery to our Central European friends who have suffered the terrible floods this month, especially to our German and Belgian friends. .

Indeed, we have much to contribute to this great climate challenge and Soil and Water Bioengineering and ecological restoration are more necessary than ever.

See you soon and have a nice Holidays

Paola Sangalli  
Efib President

### LASOSU CONFERENCE 21-22-23 th AUGUST 2021

The poster for the LASOSU 2021 conference features the title 'LASOSU 2021' in large blue letters, with a globe icon. Below it, the subtitle reads 'International Forum on Land Degradation, Soil Conservation and Sustainable Development' and the dates '21-23 August, Dalian, China'. A QR code is labeled 'SCAN ME'. Logos of various organizations are displayed in a row. A session box for 'Session SS07' is titled 'Soil and water bioengineering (SWB) as a nature-based solution for slope and bank erosion control, stabilization and ecological restoration'. It lists conveners: Federico Preti, Paola Sangalli, and Vittoria Capobianco. A list of topics is provided, including watershed management, erosion control, and ecological restoration. Two photographs show soil stabilization techniques on a slope. The bottom of the poster includes sponsorship information and logos for ALPINA, EFIB, and PlanNet.

ONLINE COURSE

Course

Organizers

The 3rd of September 2021 -9:00-11:00

Course: Introduction to Soil and Water Bioengineering for ecological restoration

Coordinator(s): Sangalli P. (EFIB); Arizpe D. (CIEF/Vaersa), Cornelini P. (AIPIN)

**Part I 2 hours - Soil and Water Bioengineering for ecological restoration**  
**Part II 2 hours : Soil and Water Bioengineering in Mediterranean area**

Price : 20 euros

Preinscription-Before the 25<sup>th</sup> August
